The Gym

State of the art fitness suite

To celebrate our 10 year anniversary, in October we completely refurbished our fitness suite with the latest equipment and technology available from Technogym. We are one of the few fitness clubs in the North of England to include the stylish 'Technogym Artis' range of fitness equipment as part of their fitness suite design.

Try out the new Technogym App, which allows you to monitor your gym performance from your smart phone.

The Box

Strength & Conditioning Studio

The role of strength and conditioning within sport, means to specifically improve athletic performance or specific skills. The Box allows our members to train dynamically, enhancing the fun and increasing the motivation for all participants. The freedom of movement The Box provides enables a different kind of training experience that you don't receive with fixed cardiovascular and resistance machines. Try a Box class or book a 1-2-1 session with an instructor to open up a totally different training experience.

The Spa

The perfect relaxation facilities with 20m swimming pool, hydrotherapy pool, separated children's pool sauna, steam room and fully equipped spa salon.

We have it all in one place!

Our luxury spa and salon has a wide selection of treatments available for everyone. You can combine the best of beauty and relaxation all under one roof by using the facilities at The Club & Spa.
